Spirits are cultural assets, and enjoying them is a centuries-old tradition: they are consumed responsibly by millions of adults worldwide every day, and in many societies they are an expression of our zest for life.

For more than 70 years, we have continuously strived to produce spirits of the highest quality and with an unmistakable flavor. Today, Jägermeister is the most successful herbal liqueur in the world. It is sold in over 80 countries and enjoyed by millions of people on a wide variety of occasions.

In 1934, Curt Mast created what is now known the world over as Jägermeister, combining 56 different natural ingredients, including select herbs, blossoms, roots and fruits from every corner of the globe. Since then we

have succeeded in combining the great traditions of a family-owned company with innovative and exciting marketing strategies. This has made Jägermeister one of the most successful premium brands worldwide. The Jägermeister brand has a strong character and stands for unique, authentic flavor.

As a family company, we are aware of our responsibility to the people who consume our products and therefore are committed to the responsible marketing and advertising of our products. We pay special attention to ensure that our sales, marketing, communication, and advertising activities promote the responsible enjoyment of our products by adults of legal purchase age who choose to drink. We are convinced that implementing this code will contribute to the long-term success of our brand.

**JÄGERMEISTER –
FOR ADULTS ONLY.**

OUR PRINCIPLES

PRINCIPLE 1

Jägermeister is intended for adults of legal purchase age who choose to drink.

Minors must be given special protection. Drinking alcohol should be a choice that is made freely by adults. In marketing and communications activities, we will strongly support the message that the consumption of alcohol is only for adults who have attained the legal minimum age.

OUR PRINCIPLES

PRINCIPLE 2

Jägermeister's commitment to responsible consumption is an important, integral component of all advertising and marketing practices.

At Jägermeister, we strive to promote the message that alcohol should be consumed responsibly. We will incorporate responsible drinking statements in our communications wherever practicable and possible. In our marketing and communications work, the consumption of alcoholic beverages will be depicted exclusively as responsible and moderate enjoyment.

OUR PRINCIPLES

PRINCIPLE 3

Jägermeister encourages responsible decision-making regarding the consumption of alcohol and discourages abusive consumption.

At Jägermeister, we reject any consumption of alcohol that is irresponsible, abusive or excessive. Our marketing and communications activities will not claim that the consumption of Jägermeister enhances mental ability or physical performance.

**JÄGERMEISTER –
HONORING COMMUNITY
STANDARDS.**

OUR PRINCIPLES

PRINCIPLE 4

Jägermeister marketing and advertising should reflect generally accepted standards of good taste while recognizing that these standards can vary from nation to nation.

At Jägermeister, we hold socially accepted standards and conventions in high esteem since our products are enjoyed by millions of different people. We want to play our part in a multicultural society and we honor the diversity of people, ideas and beliefs. Accordingly, our marketing will never denigrate anybody because of his or her sex, ethnicity or belief, nor because of his or her religious or political views.
